

Rx CONVEYORS

A PROVEN SOLUTION
TO MAXIMIZE PRODUCTION

The Rx design implements a proactive approach to increase cleanliness, minimizing dirt pockets and maximizing rounded surfaces for better drainage. The Garvey conveyor system includes a complete range of guide rails and supports. Every component in the new platforms has been carefully designed to give maximum support. The components are also highly modular to make the Rx conveyors flexible and support easy engineering. Standardization also simplifies assembly and installation, reducing start-up time and allowing quick and easy line modifications.

Simple Design & Function: Our Rx conveyor is designed to be as simple as possible, ensuring the highest level of reliability. With the lowest operational cost of any accumulator on the market, The Rx conveyor keeps maximum production more affordable than ever.

Construction Features

- 1.75" Chain Width
- Stainless Steel
- UHMWPE Wearstrips
- Side Transfer Capabilities
- Multiple Drive Options

Module Assembly Lengths

- Standard Drive Modules
- Standard Tail Modules
- Intermediate Modules - 12" to 60"
- Center Drive Units

Curve Module Options

- 45 Degree Curve
- Turn Discs
- 90 Degree Curve

Simple Design

- Minimize Maintenance Costs
- Best Return On Investment
- Proven Industry Results
- Lowest Operation Costs

Increase Throughput by 30%

Infinity Series & RX Series Conveyors

Infinity Series TM Type III Super Cleanable Conveyor

Garvey Corporation has developed the Type III Infinity Series conveyor to meet the needs of those industries that require the utmost in sanitation. The system provides complete access to all interior and exterior surfaces to allow easy cleaning. All interior surfaces are angled so that foreign material cannot collect. All metal to metal surfaces have been minimized to eliminate entrapment.

Infinity Series Conveyor

Material: Type 304 Stainless Steel

Finish: #4 Sanded Finish or Mirror finish

Chain: Low-Friction thermoplastic UHMU/Delrin

Wear Strips: Stainless steel w/ U.H.M.W.P.E. facing

RX Series Super Cleanable Conveyor

These conveyors can handle the smallest of products, with seamless transfers and tiny gaps between chain links, RX Conveyors are perfect for product like the 2ml glass vial pictured below.

RX Series Conveyor
