CASE SEALING

A true production case sealer with an ultra compact footprint- just 8' long  
Hot melt sealing model

## Model 236 Top Case Sealer

When you need a compact case sealer for your midrange sealing requirements, consider the Model 236- the small case sealer that gives you more.

- Non-stop case feed for reliable, high speed sealing
- Packed with quality production features
- Built to provide years of carefree service and quick change versatility for future requirements

# Rugged and reliable midrange top case sealer

Tape sealing model

## Quality features for a better machine:

- Steel frame construction
- Metering roller infeed automatically feeds cases spaced or back to back
- Rotating flap tucker folds trailing inner flap
- Contoured cast aluminum flap folders fold outer flaps
- Flexible compression rollers provide secure adhesive seal
- Easy access tape head for quick replenishment
- Clear, high visibility guards - electrically interlocked to stop the machine when opened
- Substantial 1 hp drive motor powers case sealer
- Adjustable leveling footpads (+/- 2")
- Sealed bearings minimize maintenance
- Automatic water eliminator keeps air lines dry
- Quick changeover with rapid-adjust hand cranks

## A compact machine with a large case range
